PRIVACY POLICY

This privacy policy governs your use of the software application Direct Dialer ("Application") for mobile devices that was created by Gaurav Bholla. The Application is specifically for smartphones with broken screen and/or malfunctioned digitizer which enables users to call, send SMS & add contacts in a hassle free manner.

User Provided Information

The application does not access internet and hence only accesses the contacts on your local device in order to auto suggest the person whom you want to send a SMS or call.

Automatically Collected Information

No user information is collected in any form. The app doesn't collect real time location of the device. No data is shared with any third party.

Data Retention Policy, Managing Your Information

No data is retained by the developer of the app. All contacts that a user creates are stored in his or her device locally.

Security

We are concerned about safeguarding the confidentiality of your information. We provide physical, electronic, and procedural safeguards to protect information we process and maintain. For example, we limit access to this information to authorized employees and contractors who need to know that information in order to operate, develop or improve our Application. Please be aware that, although we endeavor provide reasonable security for information we process and maintain, no security system can prevent all potential security breaches.

Changes

This Privacy Policy may be updated from time to time for any reason. You are advised to consult this Privacy Policy regularly for any changes, as continued use is deemed approval of all changes.

Your Consent

By using the application you accept the Privacy Policy.

Contact us

If you have any questions regarding privacy while using the Application, or have questions about our practices, please contact us via email at gbholla@gmail.com
